			I have been a most appreciated and grateful patient of wonderful Dr. Burstein for over 20 years, and the only fear I have when I go to see him, is that some day he might retire. Sadly, I was born with poor quality teeth, and over the years have developed many problems which have greatly affected my dental health & appearance. In addition, other medical issues make me Novocain resistant with "pain tolerance... BUT--Dr. Burstein LISTENS to my special needs requests & chronic pain issues; discussing my overall health in relation to any dental treatment, and miraculously, has made all of the continual dental work I need PAIN FREE. He even makes the physical office space comforting and warm. As well, because I need a lot of dental work, he has been an angel of God to help me when he can with the costs and payments. He is also willing to return calls to his patients when out of the office, and for emergency help, referrals or questions. I believe he really CARES about what happens to me, and to all of his patients. Business Wise-- he is a top-notch professional in every sense of the word: Highly skilled, communicative, on time, has diplomas, licenses, associations, and education documents are clearly displayed, along with dental information and samples of his work. The exam rooms are always clean, smell nice, and--thank heaven-- private, with a door! (Not the open-air marketplace of most dentists) Personality Wise-- He is a very NICE, respectful, honest and humble man, who loves people and animals, too! He exudes warmth, compassion, and a sense of humor, even about himself...every visit, every call-- always. I don't know how he does it for 20+ years. I can only assume that he loves his work, and loves interacting with people and helping them feel better. -- If I didn't have any dental needs, I might consider intentionally chipping a tooth just to visit with Dr. Burstein! [Also 5 stars to his 'right hand' dental assistant, Emelda, who is as kind, efficient and knowledgeable as Dr. B.]

Juliann P.	8/29/2014 15:10:00	Top Notch Experience	The staff is always knowledgeable and pleasant. Mr. Burstein takes his time to explain your dental health and answer any questions. Recently, I was fitted for a crown. Do I dare say that the experience was not only painless, but it was even enjoyable. The next day I received a follow up call from the dentist himself (not the receptionist). This office takes the fear and anxiety out seeing the dentist. To receive upscale service in dental health, visit Oswald B.Burstein DDS.	5	5	5	5	5	5

Mark A.	10/28/2013 5:37:00	He's the Best	Up until 1995 I was not very good at all about keeping up on dental visits and regular cleanings, which has been proven to be beneficial to our health and essential in keeping our own teeth throughout our lifetimes, the alternative being dentures. My reason for this was simply my fear of the dentist, like many others I too had horrible childhood experiences , but after meeting Doctor Burstein and seeing what it was like to be worked on by a true professional I absolutely overcame all my fears of the dreaded dentist office. It was The first time in my life that I received a shot in my mouth and truly did not even realize it had already happened . This kind of caring and thoughtful procedure made me change my ways of thinking and to this day I visit Dr. Burstein 3 to 4 times per year and I am Glad to report all is well with my teeth and gums, and more than likely will be throughout my lifetime thanks to meeting Dr. Burstein ! What can I say.. when you have found the right dentist, it can change your life.	5	5	5	5	5	5

Patricia R.	4/15/2013 14:21:00	Great Caring Dentist	Both the Dr and hygienist are cheerful, kind and excellent at their jobs. An overhead tv takes your mind off of your mouth and it's all over very quickly. Dr Oz asks if you are okay at regular intervals but doesn't try to make you talk with a bunch of hardware in your mouth. Makes going to the dentist a reasonably pleasant experience.		5	5	5	5	5	5

anonymous	3/30/2013 21:19:00	Excellent Dentist	Thank you Dr. Oswald Burstein for helping me achieve the smile that I've always wanted. I've been embarrassed all my adult life because of my strange looking tetracycline stained teeth. Over the years I learned it was easier to simply not smile in social situations. Years of hiding my teeth and holding back smiles and laughter weighed heavily upon my spirit and contributed to my depression. But no longer!...and I have Dr. Burstein to thank...for restoring my confidence to laugh and smile uninhibitedly like I once did as a child. By the time I called Dr. Burstein, my teeth were in bad shape, ugly and scary looking. In addition to the tetracycline stains and bands, my teeth were crooked, gapped, chipped, cracked, with bleeding gums, and had numerous areas of infection and decay. It had been years since I seen a dentist. By now, I was even more anxious and self-conscious about my mouth. And I was worried that Dr. Burstein would be quick to judge like others in the past. However, he and his team proved me wrong. They welcomed me with open ears, listened to my story, were compassionate and immediately made me feel at ease. In retrospect, the only thing I would have done differently is called Dr. Burstein sooner. Dr. Burstein and his team exude the utmost professionalism in all respects...from patient care to interpersonal skills to cleanliness to logistics. Every visit I've had has gone smoothly...from scheduling appointments, to parking in their reserved parking spots, to appointments being met on time, to when I say bye and drive off. Questions and concerns are answered and addressed on time. Dr. Burstein always returned my phone calls within an hour, if not sooner. He listens, values what I have to say, and is not quick to dismiss. I believe Dr. Burstein is an exceptionally talented dental artist who is creating beautiful smiles with his tremendous knowledge base and skill set. There is no doubt he stays updated with the latest advances in dentistry, from research to its clinical applications. Dr. Burstein is a master clinician and artisan who I highly recommend to anyone who appreciates a good smile. -- D.P.		5	5	5	5	5	5
Michael C.	3/19/2013 2:48:00	Dr. Burstein is the best!	Dr. Burstein is the best! I went in for a cleaning, learned I needed a root canal on a bad tooth, and he took care of it the same day. Then, when I had an issue with the temporary, he came into the office on his day off to take care of it. He is a genuinely nice person who really cares about his patients. He is also a great dentist.		5	5	5	5	5	5

My teeth were damaged by Tetrocyclin when I was a child and consequently, have had to endure years and years of painful procedures- that is until I met Dr. Burstein. I never thought there was such a thing as a painless dentist, and yet I have been fortunate to find one in him. Not only is Dr. Burstein a perfectionist in his work, he is always happy, compassionate, and extremely gentle. I have been his patient for 27 years and I pray he won't retire before I die. He is, without a doubt, the very best there is. I have referred many, many people to him and I always get a big thank you from each and every one of them. I'm happy to have the opportunity to rave about him in this public forum! Sincerely, Barbara Cooper	5	5	5	5	5	5
